PLUG IN TO A NEW
GROWTH PHASE

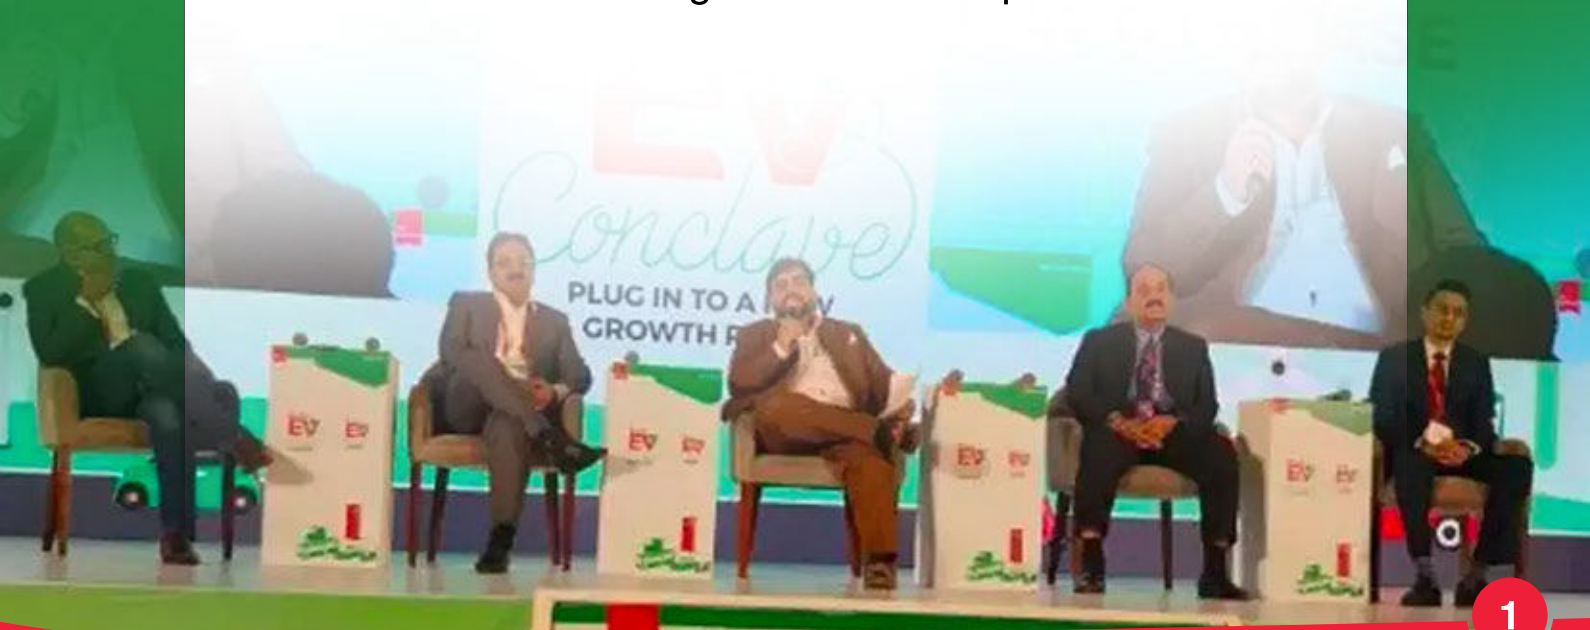

29-30 Nov, 2023

Hyatt Regency
New Delhi

The 8th edition of ETAuto EV Conclave 2023 concluded with great success on November 29th & 30th, earning recognition from across the EV ecosystem – including public sector officials, industry professionals, and startups.

The two-day event at the Hyatt Regency in New Delhi raised the bar for industry knowledge and networking. With active participation from over 300 EV industry professionals, the Conclave proved pivotal, featuring insightful discussions, engaging debates, and a compelling exhibition. The carefully curated agenda, including speeches, presentations, and panel discussions, delved into cutting-edge technologies and strategies driving Smart Manufacturing. This event marked a significant milestone in the industry's journey toward embracing the future of manufacturing, delivering a wealth of valuable insights into EV adoption.

Discussion Topics

- EV Adoption: Trends, Regulation & Industry Outlook
- Embracing for the Next Wave of EV Revolution
- Moving towards a Sustainable Future
- Transformational EV Growth in India
- Design and Development of EVs for Emerging Markets
- Powering the Manufacturing Sector in India
- Thermal Management for Electric Drivetrains
- Road Ahead: Post FAME Scheme and State Incentives
- Assistance beyond Breakdown - Empowering Country's Thriving EV Service Ecosystem
- India's Shift To Electric Mobility – An Opportunity To Transform India's Energy Security
- Introduction to India's 1st Sustainable & Automated Vehicle Washing Solution
- Sustainable Solutions for Dealerships Paving the Way to a Greener Future
- Vision 2030: Roadmap for Clean & Sustainable Mobility in India
- Approach towards achieving Sustainable Future of Mobility
- Role of EV's in the Transportation Technology Mix of the Future
- EV industry and its role in India's target to achieve carbon neutrality
- Building Robust Ecosystem for EVs in India
- Accelerate your Business with Future Ready IoT Solutions
- Brose Approach to Electrification of 2- wheelers and 3-wheelers
- Investment trade-offs: Large batteries or dense charging infrastructure
- Future of Batteries: New Chemistry, Materials and Thermal Management for electric vehicles
- Smart Manufacturing Paradigm in Automotive
- Building Resilient Supply Chain in India for the world
- Electrification of Commercial Vehicles: Find the Right Solutions for Range, Payload and Cost
- Driving excellence in EV ownership and dealership experiences
- Emerging Business Models in EV Ecosystem

Keynote Address

CV Raman

OTHERS	28

”

It's a good initiative where you meet a lot of policy makers, industry OEMs and dealer fraternity & other key decision makers together and supply chain responsibilities. This is a unique platform where you get a lot of knowledge, updates towards what's happening.

Amit Kaushik
Managing Director, India,
Urban Science

”

I believe that participating in such events always helps to reach out to people & today I'm pleasantly surprised when I got to meet my friends from the industry and engage with new partners.

Harvinder Pal Singh
Chief Business Officer,
Orbitsys Technologies

”

It's a wonderful event. I was there in the initial panel discussions and a lot of insightful points were raised, a wonderful opportunity for us to understand what is going on in the minds of various players.

Basil Siddeeqi
MD, Alkraft
Thermotechnologies

”

This is a very good platform where people are working together, they know the challenges and are working on the challenges and trying to resolve the issues, so this industry has a future.

Pullak Gupta
Chief Operating Officer,
Three Wheels United

”

I'm very glad to be here, I have been associated with this conclave for many years now. I have participated in many sessions earlier. I'm glad to see it evolving year by year.

Naveen Munjal
MD, Hero Electric

”

Indian consumers are not cost conscious but they are value conscious. EVs offer tremendous value.

Siddharth Talawadekar
Business Head,
Airtel IoT

”

I think it's a brilliant initiative & all eyes on EV today and having focus like this from Industry experts and massive events. Nice forum to voice on why it is important.

Vimal Singh
Founder & CEO,
ReadyAssist

”

It's great to be here at the ETAuto 10th Anniversary. I believe ETAuto has been able to bring the news to the country that's really helping to promote EV, so it helps the consumers to understand and also helps bring down some of the business.

Rohit Auluck
Global Industry Manager for
Mobility and Transportation
Strategy, Autodesk

”

It's always a pleasure to be a part of this event, time & again I have said the industry needs collaboration. At Statiq we believe in collaboration and it was a great experience meeting veteran leaders.

Raghav Arora
CTO & Co- Founder,
Statiq

”

Excellent, I think this has begun right at the time when the ecosystem is kind of beginning to warm up & it is almost enabling the ecosystem in a way that it brings together the supplier and people who want those suppliers for their use.

Sumeet Dhar
COO, Electra EV

PLUG IN TO A NEW GROWTH PHASE

5 DAYS TO GO

November 29-30, 2023
Hyatt Regency, New Delhi

Express Interest

We are thrilled to announce the 8th edition of ETAuto EV Conclave - India's largest Electric Vehicle ConfEx - a beacon illuminating India's path towards an electrifying future! With a congregation of over 500 illustrious thought leaders and subject matter experts, this two-day summit pledges to unravel the very fabric of trends and strategies mobilising a transformation in the realm of electric vehicles. Encompassing the vital question of propelling mass adoption across the spectrum of four-wheelers, commercial vehicles, and expansive EV fleets, this Conclave stands as the herald of a platform driving India's transportation landscape.

Read More About The Conclave

Pre Event Coverage

ETAuto EV conclave: Problems and prospects of electrification to come to the fore

The two-day conclave from November 29 is India's largest and fastest-growing conference and exhibition. Like the previous editions, the conclave will bring some of the best minds from the domestic and global EV landscape together to discuss, debate and design a better, cleaner, safer and more sustainable future for the Indian automotive...

Day 1 Highlights

ETAutoEVC: Policy to accelerate India's electric transition; OEMs seek clarity, certainty

In the electric vehicle journey, the government's role as a key motivator and facilitator has been critical, according to the EV industry stalwarts who gathered for the eighth two-day ETAutoEVC in New Delhi on Wednesday. But they are asking for more clarity and certainty on policy implementation.

ETAutoEVC: Industry in unison seeks more sops to push sales as FAME III details awaited

An impassioned plea for continued support came from vehicle OEMs, component makers and others involved in the EV ecosystem. Most industry players believe withdrawal of incentives would kill demand generation since price parity between electric and ICE vehicles is anyway a dream.

Day 2 Highlights

ETAutoEVC: Tech, sustainability, and consumer demands steer EV revolution

Deliberations at the first day of the 8th ETAuto Conclave provided a comprehensive overview of the strategies and approaches required for the successful design and development of electric vehicles in India and emerging markets. From affordability and connectivity to innovative design and technology integration, the insights shared...

ETAutoEVC: Bajaj Auto explores tie-ups as it readies Chetak for exports

The company is looking at the potential to sell Chetak electric scooters in markets outside India as exports are the lifeline of its turnover and profit.

ETAutoEVC: Auto dealerships embark on sustainability steps for a greener world

By integrating technology, incentivizing green practices, and collaborating with stakeholders, dealerships play a pivotal role in driving environmental responsibility, positioning themselves as leaders in the automotive industry's push for a greener future.

Post Event

ETAutoEVC: India may be the last one standing with ICE tech, says CV Raman of Maruti Suzuki

CV Raman, CTO of Maruti Suzuki India and President of SAE India, outlined a visionary roadmap for India's economic growth, emphasizing the pivotal role of the auto industry and the imperative of sustainable mobility. He stressed on the need to focus on alternative fuels, apart from the electrification of powertrain and said that India, which...

ETAutoEVC: Prioritise investments in tech, software, skill sets to build resilient EV supply chain, says ACMA

"The surging demand for batteries underscores the urgency of investing in technologies and software and scalable production capacities. Simultaneously, the need for an efficient charging infrastructure and a skilled workforce pose additional layers of complexity," Shradha Suri Marwah, President, ACMA, and MD, Subros, said. She touched upon the growing demand for EVs in the country despite reduction in FAME subsidy and noted...

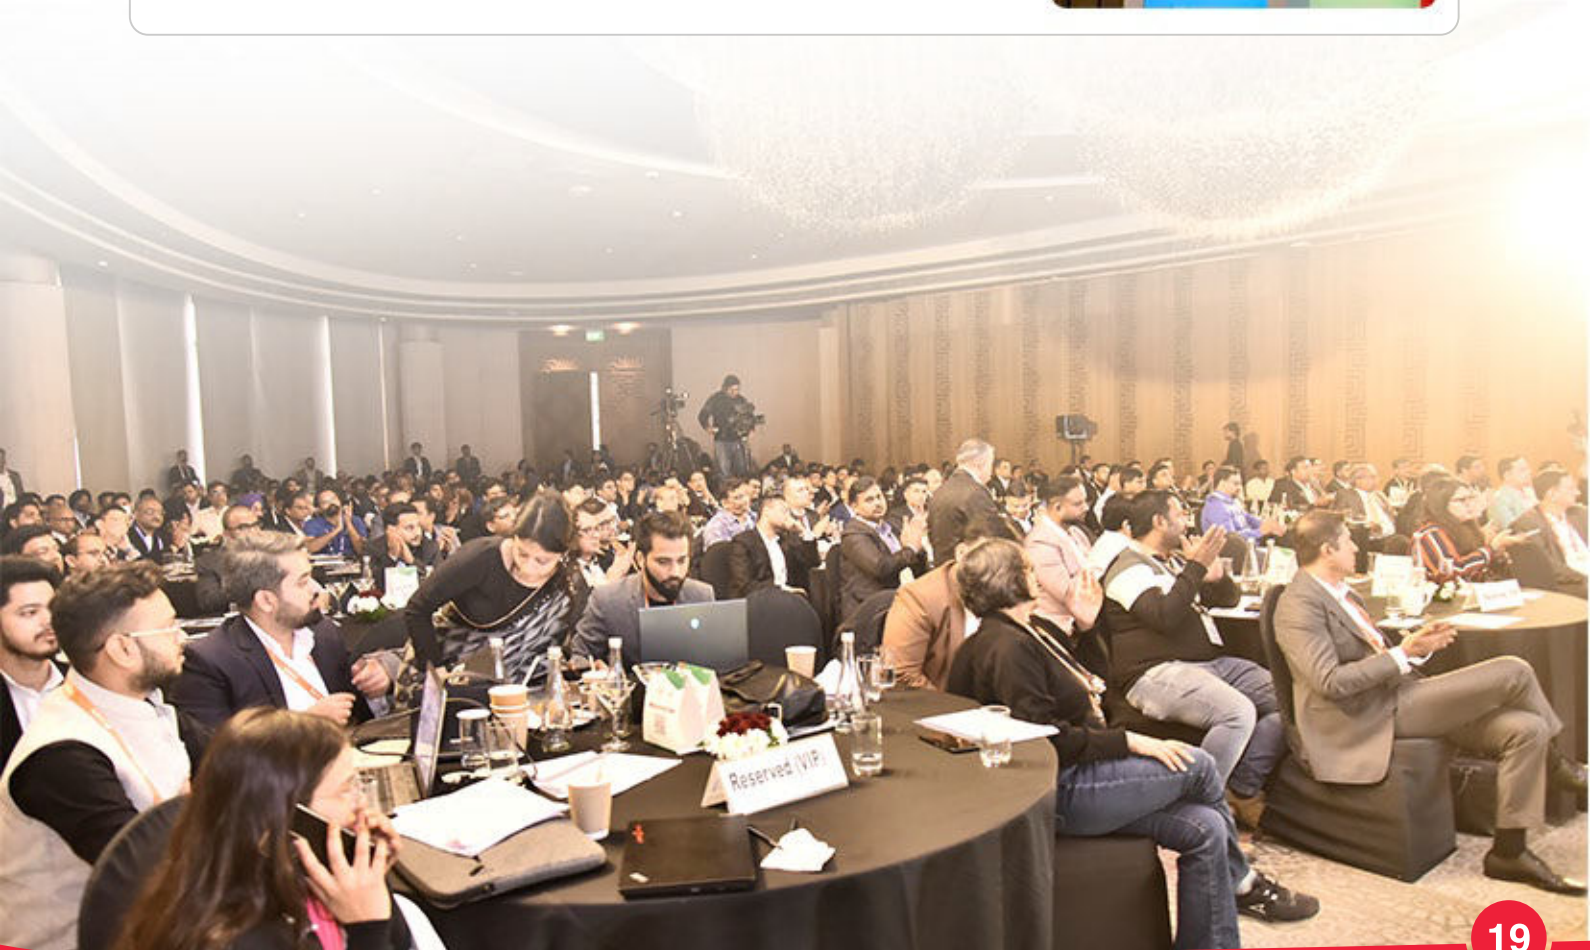

ETAutoEVC: Auto Industry has to go far and faster to hit net zero target: Vinod Aggarwal

According to Aggarwal, President, SIAM and, MD and CEO, VECV, electrification of mobility is happening in India but to make it faster to hit the net zero target on time, the many hurdles have to be overcome with the collaborative efforts of all the stakeholders, the government, industry, consumers, and various other facilitators.

ETAutoEVC: Heavy industries ministry's probe into E2W subsidy case may be too late

It is said that the inquiry has been going on for a few months now. It will be of little consequences unless the inquiry goes back to probe officials under whose watch the muck started. The entire set of decision-makers has been changed. Meanwhile, the FAME II scheme has been thoroughly discredited. Any further incentivisation of electric two-wheelers remains uncertain.

About ETAuto

ETAuto is a global platform for automotive leaders and decision-makers, owned by the world's largest media house-The Times Group. It is a platform known for breaking news, germinating discussions, and debates on future ideas about the automotive and mobility value chain. It continuously produces insights through research, data analysis, and industry forums.

Every month, the online publication is visited by about two million industry professionals and stakeholders which makes it the primary platform for news, information, and knowledge about the automotive sector in India and around the world.

#Do You Know?

Over **1 million** Industry Professionals visit ETAuto every month.

Over **2.5 Lakhs** of senior management representatives visit ETAuto every month

Over **4.5 Lakhs** Industry Professionals read ETAuto E-newsletter everyday.

Over **300 top industry leaders and experts** from all around the world engage with ETAuto users through various interactive sessions.
